3	Opportunities to be successful in course	18	4.7	4.5	4.5	4.5	72%	28%	0%	0%	0%
4	Overall course helped learn required concepts/ skills	18	4.7	4.4	4.4	4.4	72%	22%	6%	0%	0%
7	Instructor presented material in way that helped engage in course	18	4.6	4.4	4.3	4.4	67%	28%	6%	0%	0%
8	Instructor helped to understand relevance of course content	18	4.6	4.5	4.4	4.4	67%	28%	6%	0%	0%
9	Instructor tailored instructions/ lessons to variety of perspectives	18	4.6	4.4	4.3	4.4	61%	33%	6%	0%	0%
10	Overall, Instructors teaching methods helped to learn course content	18	4.7	4.4	4.3	4.4	72%	22%	6%	0%	0%

Instructor	Text Responses
	Question: Most effective learning aspects of course
	The modeling assignments helped understand and derive the formulas.
	Walk through problems with class to understand this information
	Great teacher
	In person modeling and excel help
	The in class modeling was very helpful
	The professor, Mr. Jalal was the incredible with helping students in their own needed way. Between staying after class and office hours I think he has helped out almost the entire class. Very organized and teaches at a great speed.
	The in class activities on paper.
	The teacher explained everything very well.
	When we did the in-class homework it became very helpful throughout this class.
	Lecture
	Homework, helped me learn the equations the best way
	The structure and how it was taught

	The in work class has helped a lot
	The modeling assignments during class.
	The worksheet and structured working examples.
	Question: Least effective learning aspects of course
	NA
	Everything was great
	Some of the math.
	Needed just a little more examples with numbers and not just variables
	I enjoyed all aspects of the class.
	The Final Project.
	It was very fast paced
	The TA did go through everything on the board fast and I would get lost. Or he would come up with some numbers that I didn't know where they came from.
	Top hat
	Module assignments in class, just sped through them and didn't learn anything
	None
	He was a bit fast with his calculations but it was still easy to follow.
	I would have like a bit more mathematical rigor to the course, because I think that some of the concepts would have made more sense if they were explained with a bit more calculus (derivatives and partial derivatives), although that is beyond the scope of this course.
	Question: Additional comments about instructor
Bagherzadeh	Was a great instructor I'm glad I was in this class.
Bagherzadeh	Very helpful
Bagherzadeh	Super kind and helpful guy. Very smart and always answers questions kindly. Very flexible. LOVED how he made the HW within 2 weeks to save us money. Great teacher.
Bagherzadeh	He is a very very affective Instructor. Very engaging.
Bagherzadeh	The excel stuff is very tough for someone who hasn't used it much, but other than that the class was great!
Bagherzadeh	Jalal was very good and I enjoyed his class.
Bagherzadeh	Mr. Bagherzadeh was super nice and super helpful and was always there to answer any questions
Bagherzadeh	He sometimes explains stuff a difficult way when not needed. But overall enjoyed his class a lot and he is going to be a great professor one day. Really wants you to learn and not just hand you work for a grade.
Bagherzadeh	N/A

Bagherzadeh	I think he did well for his first time and the constrained timeframe facing all of us. I would like a degree of more mathematical rigor to the presentation and application, so that there are more general concepts that can be understood.
