Text Responses

Comments instructor or course

was a good class, just with the final wasn't worth so much

Professor Jalal is the best economics professor at Texas tech

Professor Bagherzadeh was very patient especially when we were having a hard time understand the content. This was very helpful

Professor Bagherzadeh was a very informative and intelligent instructor who abides by engaging with the class whenever possible/necessary. Overall, it is a great course, and I'd absolutely recommend this instructor to students who still need to take this class.

I like how we go over test prep

This professor is one of the best, he is always willing to help!

He is amazing, so sweet, and truly cares about the success of his students. When students didn't do well on the exam he ensured them that they didn't fail this alone he did too, and that their grade was his grade. By not putting students down he built confidence which in return helped the overall class succeed further.

I love my teacher a lot and he knows how to teach. He is really good at his job and takes pride in it. It is kind of hard to understand what he is saying sometimes. I love his class though it is one of my favorites.

Very good teach, loved his teaching and he did as well. Sometimes it was hard to understand him because he didn't articulate English the best but over all if you payed attention you got what he was talking about

This professor is very kind and listens to his students, he takes the students needs into account.

great professor material is hard to grasp at times but that's economics for you. I feel like your teaching styles was good especially because i am a visual learner. I also appreciated how the midterms came from the homework because it made me have to learn each question. overall i have nothing negative to say about this course or professor. thank you for a great semester.

Loved the class, thankful for my profesor.
